

Below are the Energy Star Benchmarking Questions to Score your facility's performance. Please use your best estimates.

1. How many physical buildings do you consider part of your property? Name each
2. What Year was this facility built? Additions?
3. Gross square footage indoor?
4. Refrigerated Warehouse Square footage? Type of chilling equipment (Chiller, compressors/condensers)
5. Refrigerated Warehouse operating hours?
6. Number of workers on main shift in Refrigerated Warehouse?
7. NON-Refrigerated Warehouse (include office space, storage) Square footage?
8. NON-Refrigerated Warehouse operating hours?
9. Number of workers on main shift in NON-Refrigerated Warehouse? Count sales people or other transient employees as ½ worker.
10. Irrigated square footage? (the amount of outdoor vegetated area that is supplied water regularly)
11. Parking lot square footage?
12. Comfort Heating and Cooling Sources (electric, gas, other)? Boiler, furnace, packaged Rooftop Unit, Air source Heat Pump, Standalone A/C units? Provide quantity of each type and areas they serve:
13. Hi Lo forklift information (gas or electric)?
  1. quantity?
  2. photo of nameplate - please attach
  3. hours on charge?
14. Current Lighting types (T8, T12, T5, LED) in each area:
  1. Warehouse type: Motion sensors controls?
  2. Offices type: Motion sensors/daylighting controls?
  3. Storage/other: Motion sensors controls?
  4. Parking Lot: Motion sensors controls?

- Have you made any upgrades to your lighting, if so what types and when was the upgrade done?
  
- Have you made any recent upgrades to your HVAC, if so what types and when was the upgrade done?
  
- Have you made any recent upgrades to your Refrigeration, if so what types and when was the upgrade done?

\*\*\* We also need 13 months of electric, gas/propan and water bills for each meter on the site. Email to Shawn.
